

Certificate of Course Completion

Mark Anthony Gubat

has successfully achieved student level credential for completing the Network Defense course.

The student was able to proficiently:

- *Use cybersecurity concepts to document a network security posture.*
- *Configure security measures on network devices and Linux and Windows endpoints.*
- *Implement phases of identity lifecycle management.*
- *Configure a simulated network firewall.*
- *Recommend cloud security measures given a scenario.*
- *Determine the appropriate data protection mechanism to ensure secure transport and storage of network data.*
- *Explain how the public key infrastructure (PKI) is used to enhance data security.*
- *Implement virtual computing environments.*

Certificate of Course Completion

Mark Anthony Gubat

has successfully achieved student level credential for completing the Introduction to Cybersecurity course.

The student was able to proficiently:

- Explain the basics of being safe online, including what cybersecurity is and its potential impact.
- Explain the most common cyber threats, attacks, and vulnerabilities.
- Explain how to protect oneself while online.
- Explain how organizations can protect their operations against these attacks.
- Access a variety of information and resources to explore the different career options in cybersecurity.

Statement of Achievement

Mark Anthony Gubat

has successfully achieved student level credential for completing the Python Essentials 2 course, provided by Cisco Networking Academy in collaboration with OpenEDG Python Institute.

The graduate has studied:

- *Design, develop, debug, execute, and refactor multi-module computer programs written in Python 3.*
- *Analyze and model real-life problems in OOP categories.*
- *Use the potential of Python in everyday applications, including IoT and DIY activities.*
- *Understand the role of a programmer in the software development process.*
- *Attempt the qualification PCAP – Certified Associate in Python Programming from OpenEDG Python Institute and continue their professional development at an advanced level.*

Statement of Achievement

Mark Anthony Gubat

has successfully achieved student level credential for completing the Python Essentials 1 course, provided by Cisco Networking Academy in collaboration with OpenEDG Python Institute.

The graduate has studied:

- Design, develop, debug, execute, and refactor simple computer programs written in Python 3.
- Think algorithmically to analyze problems and implement them as computer processes.
- Use the syntax, semantics, and the most important elements of the Python Standard Library to write Python scripts and resolve typical implementation challenges.
- Understand the role of a programmer in the software development process.
- Attempt the qualification PCEP – Certified Entry-Level Python Programmer from OpenEDG Python Institute and continue their professional development at an intermediate level with Python Essentials 2.
